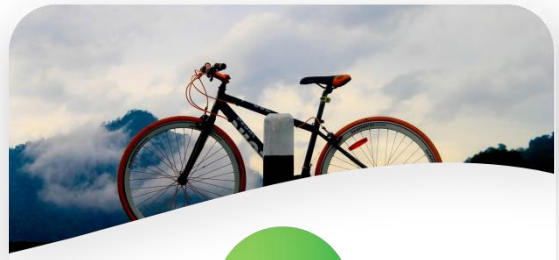
Metaverse

We create classrooms for Metaverse



Health Tech

Future of operations and surgeries

- Highly innovative
- Innovatife & Improvise Banking
- **Health Care Innovation**

Used by

Students

Can learn more effectively

Guided Virtual Tours, Collaborative Tours (ARIA together)

Employees

Can learn very fast

HR policies, Office Walkthrougs etc

Internet User

Enriched Understanding

Any information in internet can be consumed more effectively

Metaverse User

ARIA Study, ARIA Narration

Schools, Students, Personalization

About Us.

Team

Transform Learning **with Immersive VR.**

The all new Metaverse is the future of business, We are just the stepping stone into it. Virtual Reality is made much immersive with our AI powered bots

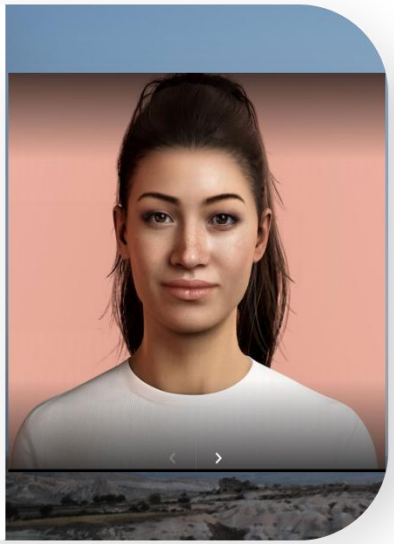
- Passionate Team
- Experienced developers
- Built with open source

5
Finished Project

Customer Validation done

50
Happy Customers

Aframe / Uneeq



Open source and Free

Used aframe open source framework for Virtual Tours Human Digital Representations

AI Bot

Azure bot services

AI bot will be built using microsoft azure services

Build Strong Apps

From scratch–

to till now.

New 2022

Azure

Holo lens

Vission.

Passion meets people

VR + AI = ARIA

Beautiful and **immersive assisted future reality**

Virtual Reality apps are eagerly waited services for many business to acquire and utilize

Brainstorming

We strived to make sure the products are built from scratch

Evolve the solution

With power of Azure services, AI Assitant got much powerful

Virtual Tours

Most affordable way of generating 360 images

Brainstorming

AI Bot

Most powerful and multilingual for the world.

Evolve the solution to world

Affordable AI

Mission.

To bring business to next generation of AI and VR.
